3M™ PRIMACAST™ UNPADDED SPLINTS

Offers the speed and strength you expect in synthetics, with a water-activated material that sets in 3-4 minutes and functional strength in just 20 minutes. Provides a plaster-like conformability for easy molding, better mobility than fiberglass splints, and lower profile than competitive padded fiberglass splints. Provides superior radiolucency for easier diagnosis from x-rays.

PROCARE SURROUND® PATELLA STRAP

Helps relieve anterior knee pain caused by patellar tendonitis, chondromalacia and Osgood Schlatter by applying pressure to the patella tendon. The primary body of the strap is a soft, latex free nylon/foam laminate with contact closures. A unique cylindrical Floam™ bladder is encased inside the body of the primary patella strap and may be adjusted for added compression. Floam™ provides uniform compression and a customized fit while prohibiting pressure from being displaced to bony prominences. Patent pending.

DJO AIRCAST A60™ ANKLE SUPPORT

Created with the athlete in mind, the A60 provides a winning combination of effective support and protection, comfort, and simplified application. The patent pending design incorporates a sleek stabilizer located on either side of the ankle. This stabilizer is molded at a 60 degree angle to help guard against ankle sprains and prevent rollover. Manufactured from Breath-O-Prene® material, the A60 ensures that the wearer stays comfortably cool and dry, while the light-weight anatomic design easily fits in athletic footwear without creating additional bulk. The A60 is applied and adjusted with a single strap that securely holds it in place; replacing time-consuming lacing. The A60 Ankle Support is available in three sizes: small, medium, and large, with left and right models. 60° Stabilizer guards against rollover and helps prevent sprains. Breath-O-Prene® fabric keeps wearer cool and dry. Sleek, anatomic design for a comfortable bulk-free fit. Simple single strap application and adjustment.

DJO AIRCAST ANKLE SPRAIN CARE KIT

The Ankle Sprain Care Kit is a complete system for the functional management of an ankle sprain. It includes the Air-Stirrup Ankle Brace, an ankle wrap, cold pack, exercise band, and a video plus booklet showing instructions for treatment and rehabilitation. With clear and simple-to-follow steps, the kit ensures that the patient receives a complete and thorough understanding of the proper care of their injury, saving the practitioner time and reducing overall costs. While initially used for the acute stages of a sprain, the Ankle Sprain Care Kit is also suitable for chronic instability. The instruction video and booklet adhere to standards for patient education as identified by JCAHO. Ankle Sprain Care Kit Includes Aircast Air-Stirrup Ankle Brace, Supports, Protects, and Controls Swelling. Ankle Wrap provides additional circumferential compression to control swelling when used in conjunction with the Ankle Brace, Cold Pack Reduces pain, Exercise Band helps strengthen the ankle with exercises, video and booklet provides instruction on the proper care of a sprained ankle.

PROCARE SURROUND® AIR ANKLE

Injection molded shells help minimize ankle rotation and inversion/eversion without restricting plantar or dorsiflexion. Two full-length pre-inflated air chambers lined with soft foam help reduce swelling and enhance circulation. A soft, plush liner covers exterior of bladders to help maximize patient comfort and prevent skin irritation. Air valve at proximal end of bladder allows for simple adjustment of air when desired by using filling tube. Soft foam heel pad provides easy adjustment for proper fit. Ideal for acute ankle sprains and strains, chronic instabilities, and prophylactic use.

Hot & Cold Packs

EMPLOY+ABILITY INSTANT HOT COMPRESS

Promotes healing by increasing oxygenation while helping to relax muscles and decrease joint stiffness. Provides quick, localized therapy in a single-use, disposable compress. Saran coated poly-mylar water bag film.

4298 Instant Hot Compress, 5 1/2" x 8", 24/cs

EMPLOY+ABILITY INSTANT HOT GEL PACK

Promotes healing by increasing oxygenation while helping to relax muscles and decrease joint stiffness. Flexible disk. Non-toxic. Controlled temperature. Laminate bag construction.

4402 Instant Hot Gel, 7" x 9", 24/cs

EMPLOY+ABILITY PERINEAL COLD PACK

Diminish edema and provide patient comfort following an episiotomy. Single-use design reduces cross-contamination risks. Since the patient can apply the easy-to-use packs, nursing intervention is minimized. More convenient and cost-effective than traditional methods such as latex gloves filled with melting ice. Upon activation, temperature decreases to a therapeutic level and pack changing is less frequent due to the attached super-absorbent pad.

4403 Perineal Cold Pack, 3 3/4" x 11", 24/cs
